Sysert Plant-museum: the history of my native town in the history of the plant

Authors :

Anastasia Muhlynina,
Anastasia Demenshina,
Maria Tikhomirova,
9th grade, school № 1

Supervisor :

Elena V. Vatoropina,
teacher of English,
school № 1, Sysert

Sysert, 2022

The aim of the project is to develop students' cognitive interest in studying history of their native land, forming their tolerance and patriotism.

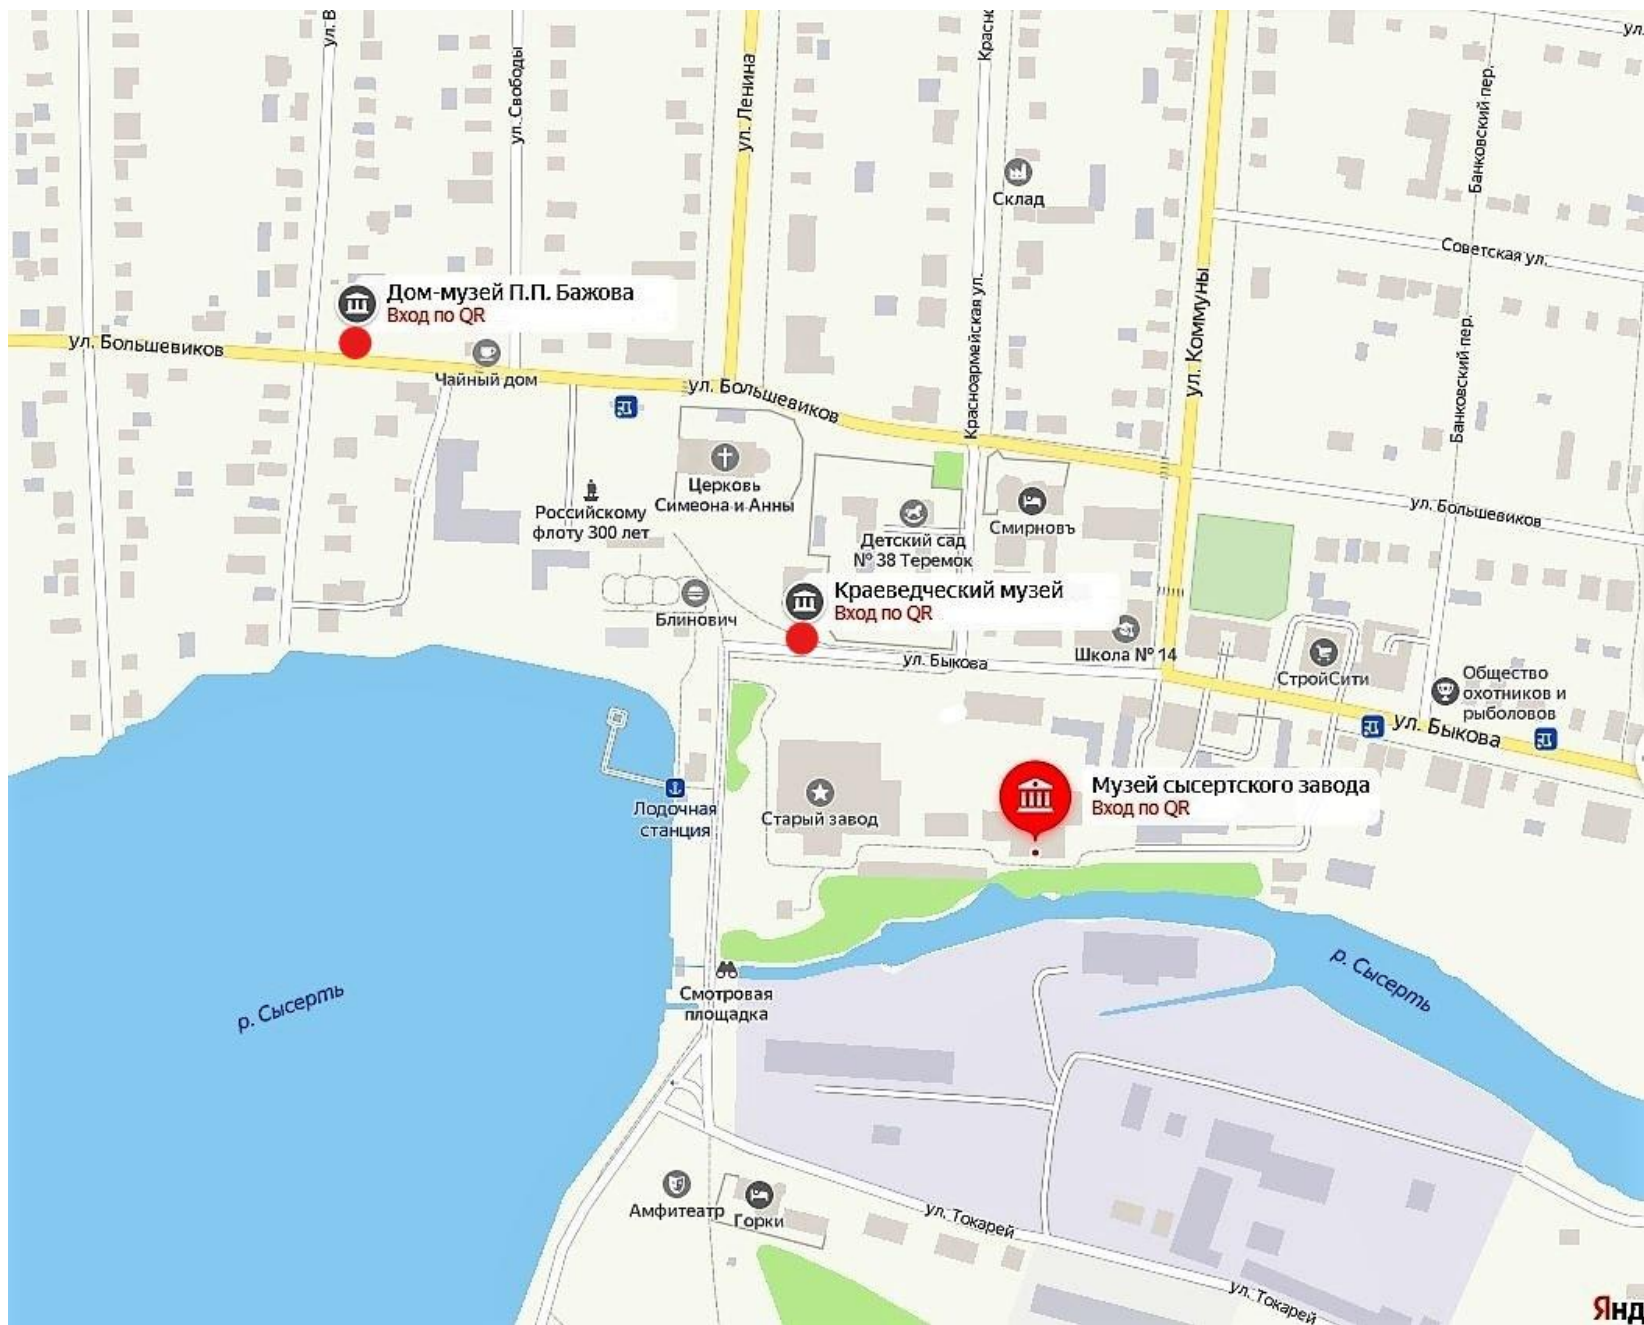

The objectives of the work are:

- to visit museums of Sysert, to meet with Alexander Savichev, the leader of the Sysert plant-museum;
- to study the literature on the topic available on the internet and in the libraries and summarize the valuable information;
- to share interesting information about Sysert Plant-museum on the school conference and in the school magazine «Friendship».

The object of the investigation is museums of Sysert.

The subject of the investigation is the history of the creation and exhibits of the Sysert Plant-museum.

Museums on the map of Sysert

- Pavel Bazhov Memorial House-Museum
- Local History Museum
- Sysert Plant-museum

Pavel Bazhov Memorial House-Museum

Bazhov's house. Now it is a museum

Bazhov statue outside the door to the house

Samovar

Buckets and yokes, carpentry hand tools, axes, chests, and woven rugs in the shed

Russian stove and kitchen utensils

A spinning wheel, chest of drawers, and woven rugs

One of the town's main tourist attractions is Pavel Bazhov's house. The house holds many unique objects of the Russian peoples' daily life in the 19th and early 20th centuries.

The exhibits include works made by gifted local artists and also kitchen utensils, spinning wheels, a weaving loom, Russian sledges and other objects created by anonymous folk craftsmen.

Local History Museum

It all started in 1945, when enthusiasts decided to create a small local history circle.

Today's exposition of the museum occupies five exhibition halls, that describe the history of Sysert from the past to the present day. In the museum you can see a unique collection of antique furniture, musical instruments of the late XIX century.

Among the interesting exhibits visitors can see some products of the company «Uralhydromash», which include both modern production (hydraulic turbines) and products produced during the war of 1941-1945 (bombs, shells, grenades).

Sysert Plant-museum

Sysert plant-museum is being created on the initiative of the local historian Alexander Savichev.

An architect by education and a fanatical popularizer of his hometown, for several years Alexander has gathered like-minded people from among government officials, entrepreneurs and volunteers who consider Sysert the best place to live and are ready to make efforts to bring reality in line with their dreams.

Alexander Savichev said, *«I have the most important dream since my childhood. I want to open a museum about the plant at the plant. I want to show everyone the luggage of local lore that I have been collecting for 15 years.»*

Sysert Plant-museum

Sysert on the map, XVIII century

The museum is dedicated to the history of the Sysert plant from the 18th century to the present day. Fundraising is open for its creation. Soon there will be a demo version of a large museum which the Sysert Development Agency will create as a part of the reconstruction of the plant in a few years.

«The plant» for the Urals is a synonym for «the city». It was with the creation of factories and plants in the 17th century that the modern history of our region began. The development of the culture of everyday life, the development of education, transport and even art is associated with factories and plants here.

XIX century*

Sysert Plant-museum

Together with like-minded people, residents of the city, volunteers, businessmen, his friends and family, Alexander Savichev transformed the plant into a museum, held subbotniks, organized collections of exhibits for the museum.

Most of the requested materials were donated to the museum by companies and people who believed in the idea.

The premises of the museum are being renovated. The necessary furniture and equipment were purchased. All the information stands were made.

The exposition of the museum is about 110 sq. meters.

Sysert Plant-museum

The exposition of the museum includes unique exhibits shared by local residents or found on the territory of the plant.

The exhibits reflect three centuries of the history of the plant.
The history of the plant reflects the history of the town.

Sysert Plant-museum

The exhibits reflect three centuries of the history of the plant.
The history of the plant reflects the history of the town.

Cast iron cannon balls
were made at the plant
in the 18th century

Various tools and equipment were made from
cast iron and aluminum blanks

Engines for washing
machines were made
at the plant in the 20th
century

Blast furnace boots
on old wooden blocks
(so that the heat does
not reach the toes)

Plans for the development of the «Sysert plant-museum» project: Interview with Alexander Savichev

- doing a research and collecting work;
- free excursions around the museum for schoolchildren;
- an animation exhibition "Machines of the old Sysert plant";
- a cultural-exhibition project "The plant is talking!" (recording video interviews of the workers of the Sysert plant of the Soviet period and their descendants);
- lectures by Ural scientists about the history and technologies of the Urals;
- making educational videos for excursions and lectures;
- creating audio tours;
- creating a storage area for museum exhibits

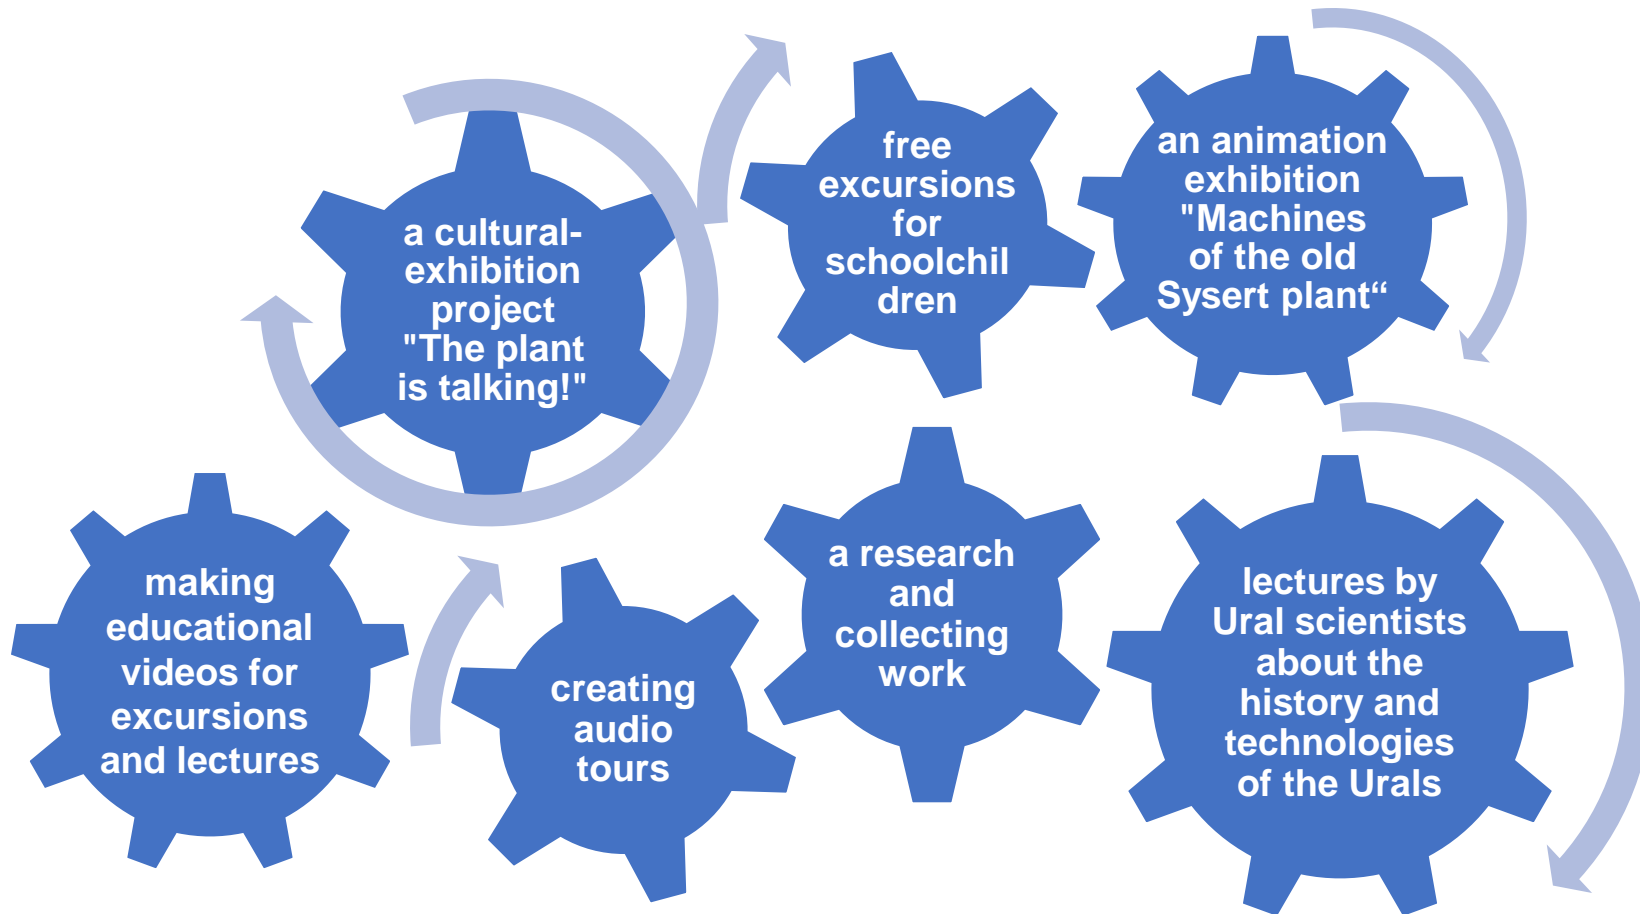

Alexander Savichev gave us his new book "Сысертский завод-музей".

They have great plans for the future!

«Summer at the Plant»

In July 2020, the «Summer at the Plant» project was launched in Sysert. The territory of the Turchaninov-Solomirsky plant blossomed with new life.

The cluster was visited by 20 thousand people.

- Subbotniks
- Facilities (a lecture hall, a concert hall, a coffee shop, and a pizzeria)
- Events (concerts, lectures, discos, etc.)

In July 2021, the second season of the «Summer at the Plant» started.

- Summer coworking
- Glamping
- Individual mini-offices
- Creative and project teams
- Small companies

«My native land» is one of the most popular headings of the magazine. Our schoolmates often go on hikes and excursions around Sysert and the Urals. They share their impressions on the pages of the magazine.

Sysert Plant-museum

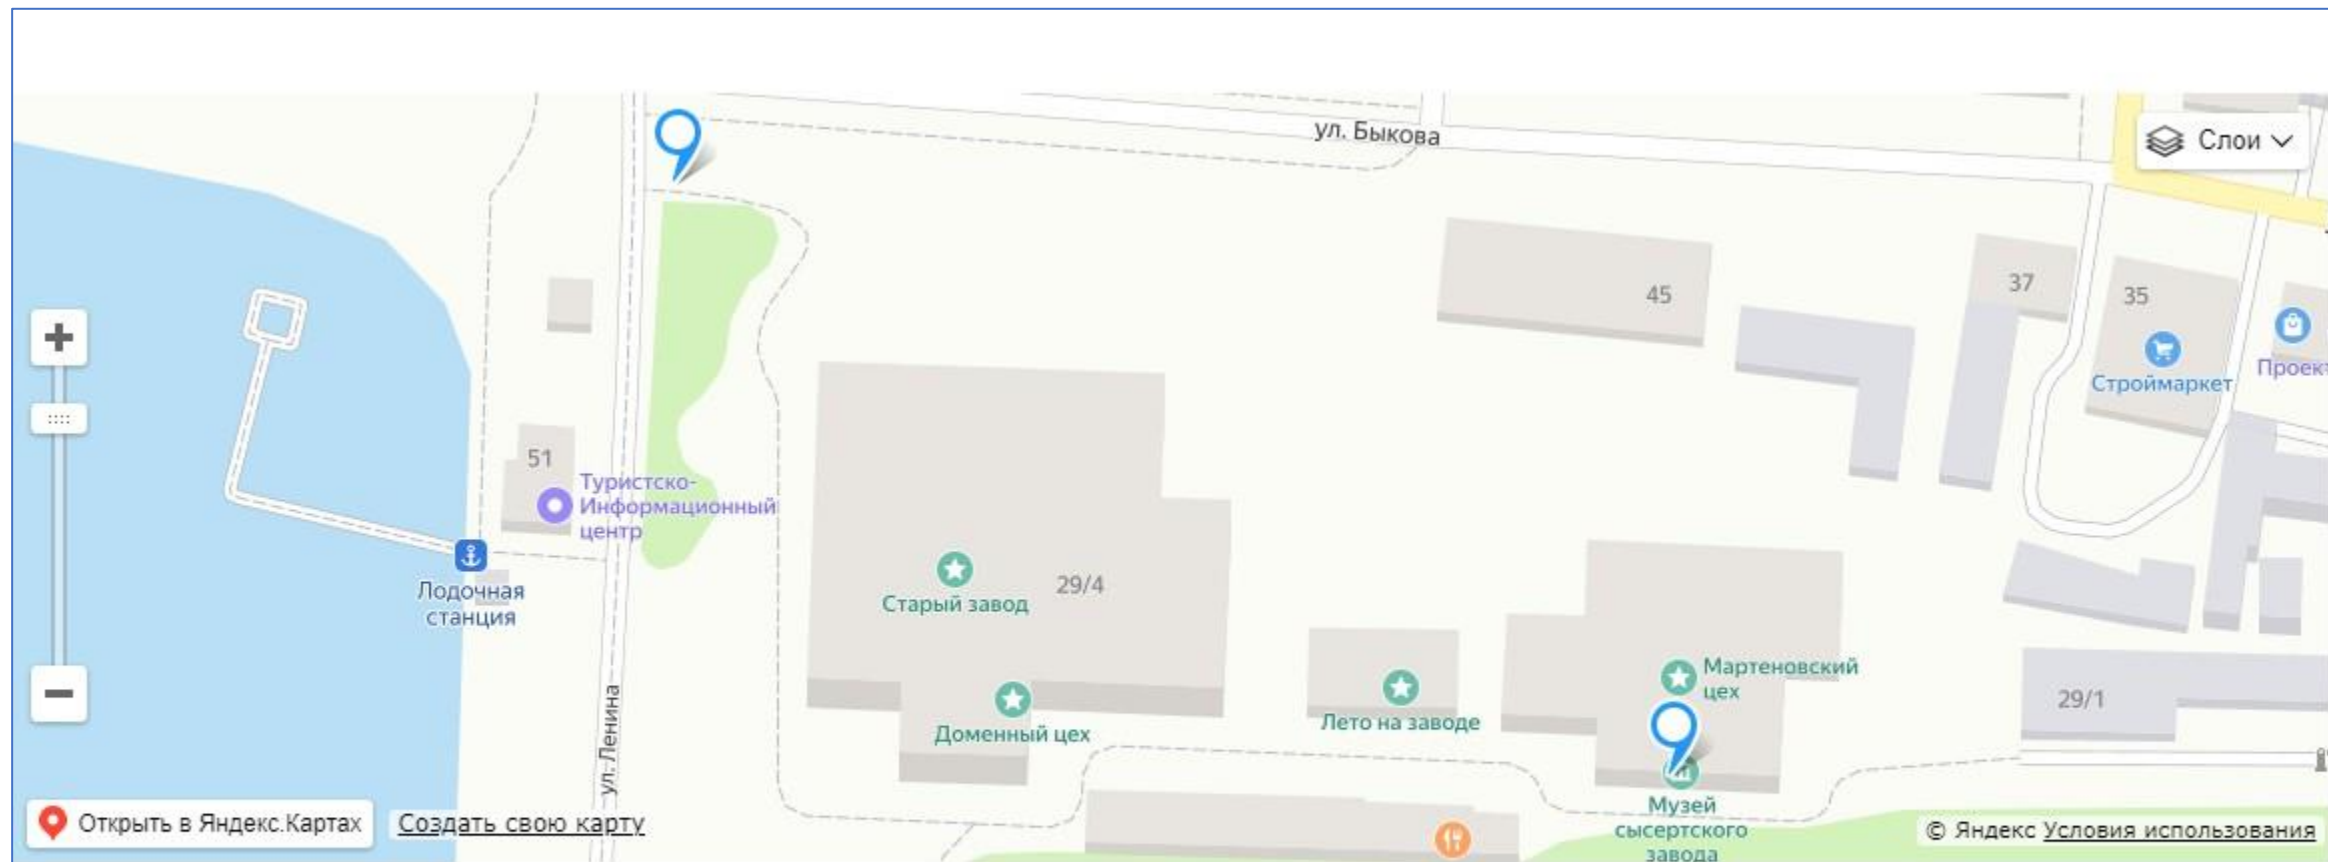

Conclusions

- Working on the project we learnt many interesting and unknown facts about Sysert and its history. We didn't know that Sysert had such an interesting history and so many famous people lived there in the past.
- We saw many unique exhibits in the museum. They describe another Sysert, but its symbols and signs are still alive. We felt in touch of the past.
- We had interesting conversations with people who had much more knowledge about our native town and the Urals, and they shared their knowledge with us.
- Visiting Sysert plant-museum encouraged us to continue to learn the history of our native land. The history of Sysert is the history of the Urals, the history of the whole country. We need to know it in order to become real patriots of Russia, to understand the prospects for the development of our native land.

Мы находимся по адресу г. Сысерть, ул. Быкова 29/4
Записывайтесь на экскурсию и приходите в гости!

Welcome to Sysert Plant-museum!
