

I love learning!

At school, I have two favorite subjects - English and Literature.

I learned to read when I was only 5. I adore reading! I read many interesting books of different genres. I love literature lessons. Our Literature teacher Marina Leonidovna tells us about different books, and writers and does it perfectly! At the lessons we read poems of famous poets, analyze them. To my mind, Literature is a very creative subject, which helps us "to learn to dream", for example when we write an essay.

Marina Leonidovna is a teacher who is able to listen and to hear, to attract students' interest to the subject. She is a tactful and fair teacher. She can restrain her emotions when it is necessary.

In my opinion, every Literature lesson is a discovery, which offers us an amazing world which isn't like a real life. When we read a book, we endure all adventures and obstacles with the hero. The teacher of Literature helps us to feel and understand all the value of classical literature and books of famous writers. Dostoyevsky, Pushkin, Lermontov, Gogol, Shakespeare... Their books will live forever!

English is very important in modern world. It is the language of international communication. That is why I try to do my best to acquire it. It is very hard but it is worth doing it!

At the English lesson we read texts, translate from English into Russian and from Russian into English, watch English films in original. I like it, because it is very interesting and informative. Learning English we learn many new facts about customs and traditions of Great Britain and all over the world. We often work in groups and learn to communicate in English. It is interesting and pleasant. We often try to make up funny stories and dialogues. Sometimes we listen to music and sing English songs. We also read and learn poems by heart. It's never boring at the English lessons! That is why English is my favorite lesson.
