My school often organizes different activities such as health Day, class hours, competitions and etc. It makes our school life fun and interesting.

My favorite subject

At the English lesson we write, read stories, learn new foreign words, listen to dialogues and speak English, learn poems by heart. It's important for me because I want to communicate with people in English. We have English 3 times a week.

My English teacher Elena Vasilevna has a good accent and wonderful sense of humour. It is very interesting to listen to her. I take part in different olympiads and contents in English and often win them.

My favorite subject

English is one of my favourite subjects. At the English lesson we usually learn new words, read and translate texts, learn poems by heart. Our teacher tells us many interesting facts from the history and culture of England, America, Australia and other English-speaking countries. Recently we have read about beautiful sights of London, its parks and museums, cathedrals and bridges, customs and traditions of Britain.

I have been studying English since the second form. I can read and understand English texts, speak rather well, ask and answer the questions. I like to talk to my friends in English. Our School Magazine

«TeenLife»

I think creating magazine is very important, because it helps a teenager to solve problems and undertake such actions which would allow the person to find his or her own place in the adult world. It makes it possible to produce something new. It is teenager's action that enables him to express his own point of view. It is the sphere of pupils' activity connected with research, solving problems, composing. It is participation of schoolchildren in applied activities.

Our magazine is very popular among the pupils and teachers. I like to write essays and articles for it.

You can see and read «TeenLife»:

I often ask myself «Why I study English?» For me this question has different answers and each of them is important to me.

Today English is one of the most common languages in the world. This language is used in all spheres of life such as economics, science, sports etc. I really like travelling. English makes it easy to travel in different parts of the world. I'd like to visit all the interesting countries and my wish will come true if I continue to study English. If I speak English I shall have no troubles looking for a room or a meal.

I 'm going to study at the university abroad, and most of educational institutions accept students on the basis of knowledge of English. After the university I want to go to work. If you want to get well-paid job you have to know one or two foreign languages.

There is a proverb "A new language - a new world". English is my future. I want my world to be more interesting and pleasant.
