My achievements

Plans for the future

I would like to continue my education at the special school. This school is the school of a president (SUNS). First I must pass some special exams. And if all the things fine I will be able to become a pupil of this school. It will take me four years to study some school subject very deeply. The school of a president is an excellent basic for my future. Many children who had finished their education there became talented students and successful businessman. I want to be a businessman too. But I am not sure what kind of business I like. Maybe it will be tourism or restaurant business.

Traveling and holidays

I like to travel. I have already visited a few countries. I have been to Egypt, Turkey, Thailand and Israel. Every country and every nation has its own customs and traditions. It is always interesting for me to find out something new. My favorite foreign country is Israel. It is a great country with wonderful history and culture. I saw the Western Wall. It becomes wet very often. It seems like the Western Wall hides some mystery from us. There are two Temples of Jesus in Israel. They are very old and beautiful.
