Hello, my name is Ann. I'm 11. I have a dream about a school.

My school is number 67.

It is a real school, where I study, with many class rooms, a gym, computer classes.

My dream school is a two storey building.

There are fifty classrooms. There are comfortable desks with soft arm chairs.

*I would like to have computers on the desks.
So that pupils do not go to the black board.*

There are blue blinds on the windows and a cozy carpet on the floor.

I would like to have a TV and a DVD- player in every class.

The teacher's table is near the window.

*Teachers should:
have holidays many times a year.
Students should:
do home work every day and work hard.*

That is how I see my dream school
