# SCHOOL FESTIVAL

## "WE LIVE IN THE URALS"

The annual festival "We live in the Urals" was held in our school.

Representatives of different peoples and religions have lived in the Urals for centuries side by side in peace and harmony. The aim of the festival was to preserve, develop and popularize the national traditional cultural heritage of the peoples of the Middle Urals, identify and support talented performers and creative teams, form a tolerant culture of dialogue.

Pupils from all the classes showed their performances. Spectators (our schoolmates, their parents, teachers) had a great chance to enjoy exciting spectacles, incendiary dances and songs. Pupils represented customs and traditions of the Bashkirs, Tatars, Russians and other peoples of the Urals, their national costumes and cuisine.

The festival became a great school event, which helped us to learn many new facts from the history and culture of our native land and discover brilliant talents among our schoolmates and teachers! They tried to do all their best to make this festival unforgettable for all the guests!

**Ural Federal District** covers an area of 18,185 square kilometers, about 10% of Russia. According to the 2010 Census, the district had a population of 12,080,526, of whom 82.74% were Russians, 5.14% Tatars, 2.87% Ukrainians and 2.15% Bashkirs. The remainder comprises various ethnicities of the former Soviet Union. 79.9% of the district's population lived in urban areas.

The district provides about 42% of Russian tax incomes, mostly from industry. Its major branches are fuel mining and production (53%), metallurgy (24%) and metal processing and engineering (8.8%). The latter two are especially developed in Chelyab-

insk and Sverdlovsk Oblast which constitute 83% of Russian metallurgy and 73% of metal processing and engineering. Whereas fuel and mineral mining has been providing a nearly constant outcome between 1990 and 2006, metal processing and engineering are declining, despite the fact that they employ up to 30% of industry workers of the district. Local ore processing plants can provide only 20% of required copper, 28% chromium, 35% iron and 17% coal, and many of these resources are nearly exhausted.

## *The cranes*

*The first monument to “White Cranes” in Gunib, Dagestan (was opened in 1985)*

*"It seems to me sometimes that our soldiers  
Who were not to return from fields of gore  
Did not one day lie down into our land  
But turned into a skein (wedge) of white cranes..."*

“Zhuravli”, composed in 1968, is one of the most famous Russian songs about World War II.

The Dagestan poet Rasul Gamzatov, when visiting Hiroshima, was impressed by the Hiroshima Peace Memorial Park. The memory of paper cranes made by the girl haunted him for months and inspired him to write a poem starting with the now famous lines.

The poem was originally written in Avar language, with many versions surrounding the initial wording. Its famous Russian translation was soon made by a Russian poet and translator Naum Grebnyov, and was turned into a song in 1969, becoming one of the best known Russian-language WWII ballads all over the world.

in Los Angeles, USA  
(was opened on May 9, 2005)*

## The Day of White Cranes

*One of the most poetic celebrations in Russia is the Day of white cranes - celebration of spirituality, poetry and the blessed memory of those who dead in all wars. It is celebrated in our country every year on October 22. The initiator of its appearance was the Dagestan poet Rasul Gamzatov. This festival contributes to the strengthening of traditions of friendship of the peoples and cultures of our multinational Russia.*

On October 22 there was a concert and exhibition of creative works and drawings in the framework of the city contest "White cranes". Students of schools № 1, 6, 14, 15, 23, volunteers, veterans and representatives of the Committee of Soldiers' Mothers took part in this great event.

# WE CHOOSE SPORTS!

Thanks to "Logos" Studying Center a unique meeting was held in our school on November, 19<sup>th</sup>, though the weather on that day was hardly be called very hospitable. The pupils of Sysert schools got a chance to learn more about sports popular in the USA, to listen to native speakers and even more, to communicate in English with Sam and Alec, two young American volunteers from Salt Lake City (the state of Uta) who had come to Ekaterinburg on the Urals Football Academy invitation.

After the welcome part of the meeting prepared by pupils and teachers of our school "We are for healthy lifestyle" presentation about the school and item on the programme performed by 4a pupils, Sam and Alec presented a video and told about American football, baseball and lacrosse.

Then the children asked a lot of questions not only about sport in the USA, but almost about all spheres of our life including travelling, schools, hobbies, music. We found out that Sam and Alec

are twenty years old, they have been staying for about a year in Ekaterinburg and are really enjoying the time here

in Russia. They took up sport when they were 5-6 years old, Sam plays American football which is the most popular sport in the US so every school has its own team and, by the way, if you are an excellent player you might be invited in a university team. Alec is keen on baseball. They explained that "soccer" means football for Americans. Sam added that if you want to achieve success you must love what you are doing.

Everybody was pleased to hear that favourite Russian meal for the Americans is borsch and that such cold frosty Russian winter (-30 degrees) is a good experience for them. The fact that they love rock music was cheered loudly, but here, unfortunately, came the end of the meeting as the guys had to be off.

At the end of the meeting A.F. Tarhanova, the Head Teacher of the school № 1 presented the American athletes the first issue of "Friendship" magazine and thanked for coming. The young men said that they were amazed by the schoolchildren's level of English here.

Nobody wanted them go, so a lot of children came up to them and asked for taking a photo with them, having an autograph or just wishing to have a word more closely.

We would like to thank "Logos" Centre and the Urals Football Academy for this wonderful project providing brilliant possibility to focus on sport and healthy lifestyle as well as to motivate our pupils to continue studying English.

*Presents for dear mums*

## Mother's Day in different countries

*Mother's Day is a celebration honoring the mother of the family, as well as motherhood, maternal bonds, and the influence of mothers in society. On this day, most people pray in churches in honor of mothers, while some gift them presents on this day to express their love. Some may have special dinner at home with the family.*

Different countries celebrate Mother's Day on various days of the year. Today Mother's Day is celebrated in more than 46 countries at different times in the month of May, in some countries it is celebrated in March.

On the second Sunday in May, American children of all ages treat their mothers to something special. It is the one day out of the year when children, young and old, try to show in a tangible way how much they appreciate their mothers. On Mother's Day morning some American children follow the tradition of serving their mothers breakfast in bed.

Mothering Sunday is celebrated in the United Kingdom on the fourth Sunday of the Lenten Sea-

son. In England, Mothering Sunday has a church-based origin. Historically, children would give their mothers small gifts on Mothering Sunday - usually wild flowers they picked on the way to church.

Today, much like in the American version of Mother's Day, children give presents, flowers, and cards to their mums.

In Australia Mother's Day is marked with pleasure. The Australian Mother's Day coincides with the American. It is spent on the second Sunday of May and celebrated very similar. Australians express sincere gratitude and love to their mothers.

In Russia Mother's day is celebrated since 1998. This holiday in Russia is marked on the last Sunday of November. The holiday's purpose is to maintain traditions of the careful relations to the woman and to fix family foundations.

**A VERY MERRY CHRISTMAS  
AND A PROSPEROUS NEW YEAR !**

# THE YEAR OF THE RED FIRE ROOSTER

**The Chinese New Year 2017 is the Year of the Red Fire Rooster.** It starts from January 28th 2017 and extends up to February 15th 2018. This is the year when you will need to work hard and be patient in order to achieve your goals.

Another aspect of this is lunar New Year 2017 is whether it is a Yin year or a Yang year. This Year of the Rooster is ruled by the fire element and it is a Yin year. This is the time to be spent in solitude and harmony with friends and family.

The lunar New Year 2017 has its own lucky colors. If you use these auspicious colors in your daily life everything that you take interest in will turn out the way you want it to. In other words, it is like a good luck charm blessing you with abundance and prosperity.

As the element for the Chinese year 2017 is RED, do not use red in

your clothes and accessories. Red colored stones like ruby, garnet and pink topaz too are better avoided. Instead, use colors that will complement the red and fire element. Earth colored items like brown or yellow are most suitable for all the 12 Chinese zodiac signs in 2017.

According to Chinese astrology, the Rooster years are known to be filled with integrity and efficiency. Hard work is the key to achieving success in this Chinese New Year. The Chinese New Year 2017 predictions suggest that this year can be beneficial in your career and financial investments. But time your business ventures well if you want to take advantage of the most profitable periods. Also try alternative healing therapies to keep stress at bay so that you can use your potential to the maximum.

The next question that is on everyone's mind is whether the 2017 Year

of the Rooster will be lucky for me or not? Chinese astrology 2017 forecasts predict that this will turn out to

be an excellent year for the Dragons. The Snake, Ox and Rooster will have a great year. The Rats and Tigers too will have a good year. The Sheep, Pigs and Monkeys will have a mix of good and bad happenings while the Rabbits, Horses and Dogs might face a few problems. But as long as you have the will power and focus to overcome all challenges, nothing can stop you from reaching your targets!

Christmas is celebrated on the 25th of December. It is the most popular holiday in Great Britain. It is a family holiday. Traditionally on that day all relatives and

houses, in the streets and churches. They are always decorated with fairy lights, angels and small toys. In addition, little packets with nuts, candies and special biscuits are hung on the tree. Presents are put around the tree and artificial «frost» is scattered over the branches. Besides the Christmas tree, holly and mistletoe are used to decorate the house. Branches of holly are put up behind pictures and mistletoe is hung over doors, so the young people have a chance to kiss the girls under it, plucking each time a red berry from the mistletoe. It is said that the girl who was not kissed under it at Christmas would not get married that year. On the eve of Christmas children hang their stockings, so that Santa Claus could put presents into them: oranges, sweets, nuts and if the child didn't behave properly Santa Claus can put there a piece of coal as punishment.

The best Snow Maiden and Father Frost all over the world! I love you so much!

**Arina Prosvirnova, 5B**

## My favorite childhood holiday

My favorite Christmas memory is when I was 4. We went to my grandparents for New Year's Day and Christmas, and I was worried that Father Frost would not know that I was at my grandparents' house, and not our house. I wrote letters to Father Frost and dreamed about beautiful gifts. And all my dreams always became true!

Everybody always decorated their houses to make them splendid. We hung toys and tangerines and walnuts in foil on the New Year tree. The toys were not so perfect as they are nowadays. Most of them were made of paper and foil. Tradi-

tional festive food was Russian salad, pelmeni and sweet "hvorost".

When I was little, my mother's family was very big and close and we gathered together as a family to hand out New Year gifts to all the children in the family. The New Year gifts were packed under the big New Year tree. Father Frost (my uncle Boris, as I found out later) always handed out New Year gifts to each of us. There were many kids, so it took a while. When we had all received our presents, we could open them all up. First there was the anticipation, then the joy of opening them.

The most loved gift I remember was a beautiful box with coloring pencils, a book to draw in and a coloring book. In those days our gifts were more basic than today, no smart phones, tablets or E-Readers, but the joy was the same.
