About Myself

Hello, my name is Kirill. I am ten years old. I am a student of the 4th grade, Secondary School № 1 of Sysert.

I like to play different games with my friends. We often go in for snowmobiling and ride downhill. I am very active and zippy.

My Family

My happy family consists of six cool persons: my mother, father, younger sister, grandfather, grandfather and me.

My father works very much, but in holidays he spends a lot of time with us and I can talk to him because he is very kind and loving. My Grandfather also spends, a lot of time at work, but every evening he finds time to talk is my sister. My grandmother usually looks after

I have one more grandfather, but I see him not very often. He lives very far away. Our family is friendly and understanding. We always try to help each other. My mother helps me to do my homework.

my younger sister, when my mom is busy. I help my mother about the house and go to the shop. My mom is my best friend. She is very cheerful and clever, and always can do something interesting .

My School

I study in the 4th class, secondary school № 1 of Sysert. My school is big and handsome.

In school you can make many friends, and know about their interests. They can help you in difficult situations.

Our Teachers work for us, but sometimes schoolchildren do not think how it is difficult.

The school is our second home and our teachers are our second family. I love my teacher Elena Mikhailovna. She teaches me to read, to count and to write. The school is my second home!

My Friends

I have very many friends. I like to go for a walk, to play games, to watch films and sometimes to do homework together with my friends.

I have two best friends. The first one is Danil. We are friends from our childhood. The second one is Denis. Denis is very interesting and funny. He is not afraid of anything. You can think that he is not serious, but it is not true. Denis is a very responsible friend, he never tells me lie and often helps me.

I like my friends because I enjoy to talk to them.

My favourite subject is English

We study a lot of different subjects at school. We study Russian, Maths, Literature, English and other subjects. I know that all subjects are important and I have to pay attention to all of them.

My favourite subject is English. Nowadays we can study English in kindergartens, at schools and universities. English is very important. I try to learn new words, read books and listen to English songs. Our

English teacher is very experienced. At the lesson we read, write, repeat the words and ask questions. I hope that in my future I will be able to speak English very well. I think that nowadays we all need to know a foreign language.

My hobbies

Everybody has a hobby and I have one too. My hobby is judo. Why judo? When I just started doing judo I imagined myself with a black belt and I really liked it.

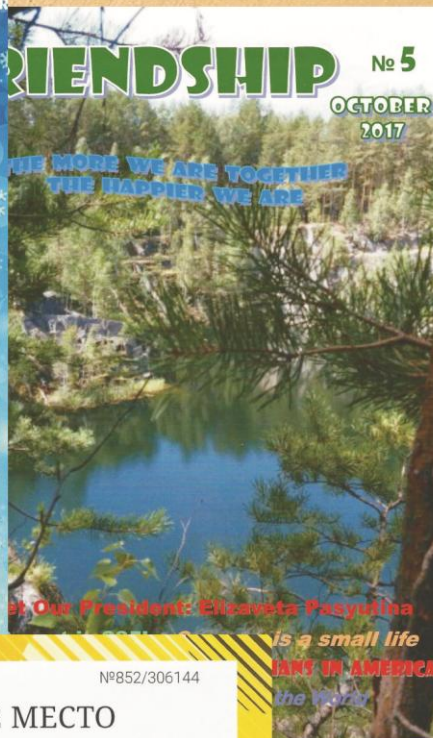

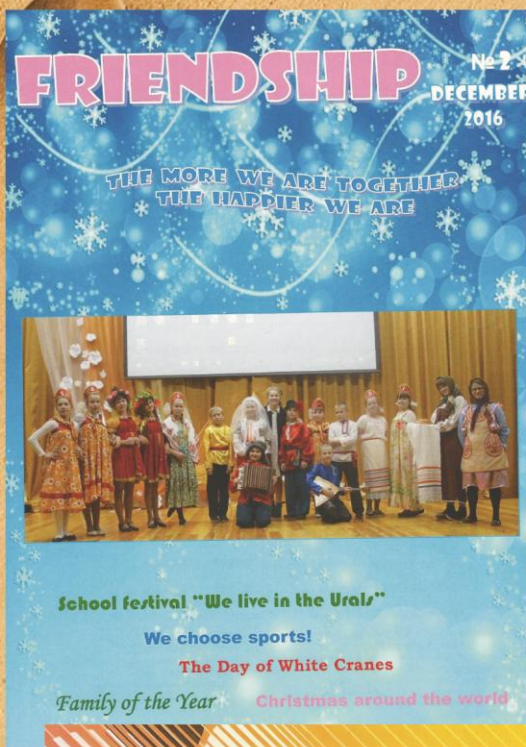

I want to win, take part in competitions and meet different people.

Maybe one day I will become a well-known Judaist, but it is only a plan, the important thing is that I set a goal for myself. I also like football. I love games with a ball. This type of sport develops speed, quickness, accuracy of reaction and endurance. Footballers are very strong people because they play football in the field from spring to autumn. Football is a team sport and it develops unity and team spirit. And the most interesting part to me is the great excitement of this game.
