Travelling around Russia

A trip to Kazan

During the period of autumn school holidays a group of pupils of our school and their teachers travelled to Kazan. For three days 12 children from 6-7 classes studied ancient sights, history, architecture and just relaxed.

Kazan is the capital and largest city of Republic of Tatarstan. With a population more than a million, it is the eighth most populous city in Russia. Kazan lies at the confluence of the Volga and Kazanka Rivers in European Russia.

In April 2009, the Russian Patent Office granted Kazan the right to brand itself as the "Third Capital" of Russia. In 2009 it was chosen as the "Sports capital of Russia" and it still is referred to as such. The city hosted many World Championships and Universiades. It is one of the host cities for the 2018 FIFA World Cup.

In 2005 Kazan celebrated its Millennium. The city is amazing! There are many

beautiful sights there. We were in Kazan for the first time. We visited many interesting places there: the Kazan Kremlin, the impressive Qol-Şärif Mosque, Monument to the Architects of the Kazan Kremlin, Museum of the History of Tatar Statehood and the Republic of Tatarstan and others.

The Kazan Kremlin is a World Heritage Site. It is located in the centre of Kazan on a high peninsular sticking out into the Kazanka and Volga Rivers. A fortress has been in this location since ancient times but the present kremlin was built on the orders of Tsar Ivan the Terrible after his conquest of Kazan in 1552. Pskov master architects were brought in to construct the 1,800 meters of walls and 13 towers. Today the kremlin is the heart of Kazan and its most famous sight. In 2000 it was inscribed on UNESCO's World Heritage List.

The impressive Qol-Şärif Mosque (also transliterated as Kul-Sharif) is the most important mosque in Tatarstan and one of the largest mosques in Europe. Previously a mosque stood in this location until it was destroyed during Russia's conquest of Kazan. There is even a theory that

the design of this original mosque might have inspired the design of St Basil's Cathedral in Moscow which was built to commemorate the Russian victory. The present mosque was built between 1997 and 2005 and its opening marked the beginning of Kazan's millennium celebra-

tions.

Every year Kazan is visited by more than two million tourists. It is one of the most beautiful cities of Russia. We enjoyed our trip to Kazan! It's worth visiting it!

The Power of Russian Word

On December 12, 2017 Cultural Center of Kashino held a Recitation Contest "The Power of Russian Word". Our schoolmates took part in the contest. Knyazeva Juliana 5B, Mangasarova Marta, 5B, Belousova Sofia, 2B, Malysheva Elizaveta, 2B, recited poems of K. Balmont, A. Zarubenko, E. Asadov, M. Kryukov.

Belousova Sofia took the 1st place. All the participants got honorary diplomas and books about our native town, Sysert.

The Autumn Drive

On the 17th of November we had a great event dedicated to autumn theme. Students from 8 to 11 took part that holiday. Leadings managed to interest our public with their entertaining program. Judges were fair but not very strict! All the teams

were awarded for their activity and amicability. But the most intriguing event was choice of Mister and Miss Autumn. Slava Filyakin and Katya Kurilo became the winners of that contest. The evening ended with a fun disco!

School life

World AIDS Day

World AIDS Day, designated on 1 December every year since 1988, is an international day dedicated to rising awareness of the AIDS pandemic caused by the spread of HIV infection and mourning those who have died of the disease. Government and health officials, non-governmental organizations, and individuals around the world observe the day, often with education on AIDS prevention and control.

On December, 1st, the lesson "STOP HIV infection / AIDS!", was held for senior students of our school. 38 students took part in it.

Health officer of the Department of Sverdlovsk region Kutuzov Z. K. told the young people about the ways of HIV transmission, course of disease, methods of protection.

8 students from the 11th grade participated in the project "Dance4life" ("Dance for life") prepared by the staff of the city recreation center. The children took part in a quiz, watched informative videos, and held a flash mob. "dance4life" is an international project aimed at promoting healthy lifestyle among young people, preserving and strengthening reproductive health, prevention of HIV and other socially significant diseases.

Our senior students took an active part in all the school events devoted to World AIDS Day - 2017.

The red ribbon is the global symbol for solidarity with HIV-positive people and those living with AIDS.

Happy Mother's Day!

On the 26th of November the celebratory concert gathered young artists of our school. They sang, danced and recited poems. Everything was imbued with passion, love of art and the joy of revealing the future stars. The concert allowed its participants to express their love to the dearest mothers as well as their fiction, imagination, creativity.

After the concert all the children and their parents visited the exhibition of photo works, handcrafts and creative works "My dear, dear mummy".

Presents for dear mums

My mom

*Mom, you're very special;
I really think you're great.
On Mother's Day,
It's time to say
It's you I appreciate!*

*Your love is never ending;
It shows in all you do.
There's no other mom
In the whole wide world
Who's half as good as you!*

I love my school!

My favourite teacher

Music

My favorite lessons are Music and Art. Our Music teacher's name is Elena Vladimirovna. She sings well and can play the piano. She is very kind, active, and talented teacher. She teaches us how to sing in chorus. We often sing and take part in school concerts. Elena Vladimirovna tells us about famous Russian and foreign composers and singers. At the Music lessons we often listen to modern and classical music. I adore music!

Nadya Sanina, 4C

Literature

My favourite teacher is Irina Victorovna. She is our class' teacher. She teaches us Russian, Maths, Literature, Nature Studies. She is a smart, cheerful, merry, friendly and kind person. We go together with her to the forest, play games there and organize different competitions. She came to us two years ago. We love our teacher very much!

Alexandr Akulinichev, 4C

Art

Liza Zakharova, 4D

My favorite lesson!

My favorite lesson is drawing.

It is very interesting for me.

The teacher's name is Vera Vitalievna. At drawing lesson we often learn to paint nature, different fruits and vegetables.

White paper, fine colors, brushes, and a good mood are all we need for a good picture.

Sometimes we read a textbook at the lesson.

There are many beautiful pictures in the textbook.

Some time ago we draw city newspaper in the lesson.

It was fun.

I love drawing!

Our PE teachers Vladimir Valerievich and Aleksandr Vladimirovich are the best!

I love my school!

My favourite lesson

Technology

At Technology lesson our girls learn how to sew and knit. They often cook different salads and soups, sandwiches, burgers and pies. Our boys learn how to cut wood with a hand saw, how to use a hand plane, etc.

Our Technology teachers Marina Alexandrovna and Andrey Konstantinovich are very creative, hard-working and positive persons. They teach us how to become prepared for adult life. Now we can help our parents about the house. And our girls often give us their meals. We try them with pleasure!

My favourite subject is English. Nowadays we can study English in kindergartens, at schools and universities. English is very important. I try to learn new words by heart, read books and listen to English songs. Our English teacher Elena Vasilievna is very

English

I really love English lessons! They are very interesting and entertaining. Knowledge of English helps me a lot when I travel abroad. I can get acquainted and play with children from different countries. I believe that the English language will help me in the future. My English teacher is the best!

Olesya Kolyasnikova, 5C

experienced. At the lesson we read, write, repeat the words and learn how to make questions. I hope that in my future I will be able to speak English well. I think that nowadays all the people need to know foreign languages.

Kirill Khvoshch, 4D

I love my school!

My favourite lesson

Maths

My favorite school subject is Maths. A lot of people believe that it is really hard to understand all the peculiarities which this subject implies. However, I am sure that Maths is really easy if you know and learn important things and understand the general idea of what you do.

Nikita Parfenov, 5C

History

My favorite school subject is History. I think that every educated person should know the history of his/her country, because in every country there were wars and peacetime. We need to respect our ancestors because they were brave at wars. We must do all our best to prevent wars in the future!

History is very interesting for me. At the lesson we learn history of different times. I think, to learn historical events and numerous dates is not very difficult, but very interesting and useful.

Lera Bayankina, 6B

At school we study many subjects, but I like history most of all. I pay special attention to studying World history. I have always been interested in the way people lived in the past, their customs and traditions, laws and religions. People should know the history of their country and other parts of our planet. I attend History lessons with great pleasure. We often watch films about different historical events. Our lessons are not only interesting, but very informative, too. Sometimes it's hard to study history, but we need to do it.

Arina Prosvirina, 6B

Biology

My favorite school subject is Biology. I like it very much! At the lesson we often look at different things in a microscope. Some time ago we investigated the structure of plants, bacteria, and mushrooms. Our Biology teacher Elena Yakovlevna is a widely-educated and creative person. She is very kind and fair. We usually have Biology lesson on Friday, and I always look forward to this day of the week!

Liza Yatsenko, 5C

The teacher is one of the most important professions on the Earth. My favourite teacher is Elena Sergeevna Novikova. She teaches us geography. Her lessons are always very interesting and informative.

Elena Sergeevna tells us about different countries, continents, climate and weather. We learned a lot about the structure of the earth and the planets of the solar system. At the lesson she gives not only

the material from the textbook, but also tells us interesting facts from life. I really love geography lessons!

Danil Chermyaninov, 6B

School Recitation Contest

Our talented dancers from the 5-6 grades took part in the Open National Contest "Stone Flower" and took the 3d place.

Well done!

The falconer Artyom Tkachenko from the Center for birds of prey "Holsen" presented a book "Falconry" (Falconry is the hunting of wild quarry in its natural state and habitat by means of a trained bird of prey). It is the first Russia's book devoted to the bird hunting. The authors of the book are O.L. Malov and V.M. Fedorov.

Artyom Vladimirovich Tkachenko told the pupils and

On November, 27 the performance "One day in the town E" was held in our school. More than 150 pupils watched it! All the spectators liked it very much! It was devoted to the basic rules of security.

On December, 4 there was a meeting with the representative of the Chelyabinsk flight school. The young men from 10 -11 grades of our school and schools № 6 and 23 of Sysert were invited to the meeting. The conversation included some interesting information about learning process in Chelyabinsk flight school. The students were shown an interesting video about Chelyabinsk flight school.

their teachers about rare birds of prey and showed them interesting photos and pictures

from the book. He invited our schoolmates to the Center for birds of prey "Holsen".

Our guests

Lake Placid, my native town

Lake Placid. Mirror Lake & Mt Marcy (right side)

Olympic Center sculpture & Russian flag

The Village of Lake Placid, where I live, is in the Adirondack Mountains of northern New York. The summit of Mount Marcy (5344 ft/1628.85 m), the highest point in New York, is a 9 mile (14.48 km) drive followed by a 7.4 mile (11.91 km) hike from the village. New York City is 288 miles (463.49 km) to the south, and the Canadian border about 70 miles (112.65 km) to the north. Lake Placid is 844.5 miles (1359.09 km) closer to the equator than Sysert, at about the same latitude as Sochi. However, Sochi is at sea level on the Black Sea whereas Lake Placid is at 1801 feet (548.94 m) in the Adirondacks. As a result, Lake Placid's climate is similar to that of Sysert, with Lake Placid being a little warmer in the winter and a little cooler in the summer. The record low temperature for Lake Placid is -38.9 °F (-39.4 °C), and there will be winter days when it is colder in Lake Placid than it is in Sysert.

Lake Placid is relatively small, with a population of 2521. Its economy is based on tourism, and there are numerous hotels, restaurants, and stores in the village. Many people visit Lake Placid to spend time on the mountains and lakes, or to simply relax. In addition, several annual summer events can temporarily increase the area's population by

as many as 10000 people! A rugby tournament, two horse shows, and a lacrosse tournament fill the hotels and restaurants. The most famous summer event is the Ironman Lake Placid triathlon. Athletes competing in this endurance race swim 2.4 miles (3.86 km), then bicycle 112 miles (180.25 km), and then run a marathon (26.22 mi/42.20 km), with no breaks in between. 2194 triathletes finished the 2017 race, and a Canadian won with a time of 8:13:53.

Although summertime may be busier, Lake Placid is most often thought of as a winter sports center. Whiteface Mountain (4867 ft/ 1483.46 m), one of the top skiing mountains in eastern North America, is 13 miles (20.92 km) from the village. Lake Placid hosted the Winter Olympics twice, in 1932 and 1980, and the Olympic facilities are still in use today. The 1932 and 1980 ice arenas are used by the CAN/AM [Canadian/American] Hockey Group for several yearly tournaments. The arenas are also used for figure skating shows and other ice events. The Olympic bobsled run, one of only four North American tracks used for international competitions, is the site of World Cup races in bobsled, luge, and skeleton.

Our guests

Lake Placid. Whiteface Mtn & Lake Placid

Lake Placid. Algonquin Peak & Olympic Center

Lake Placid. Main Street

*Lake Placid. Cobble Hill & Mirror Lake

Projects. Investigations

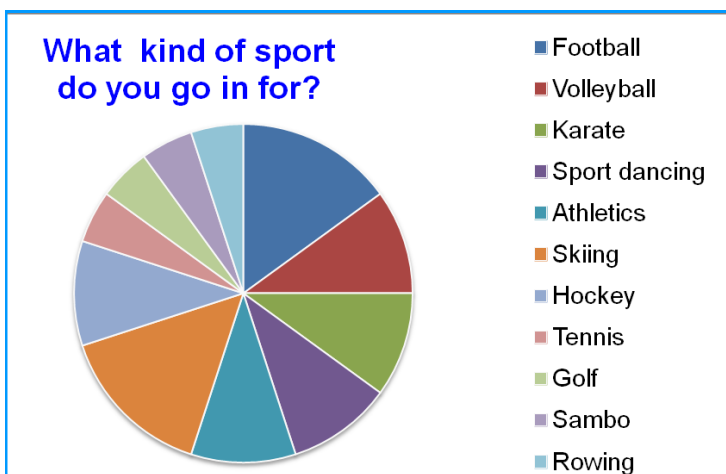

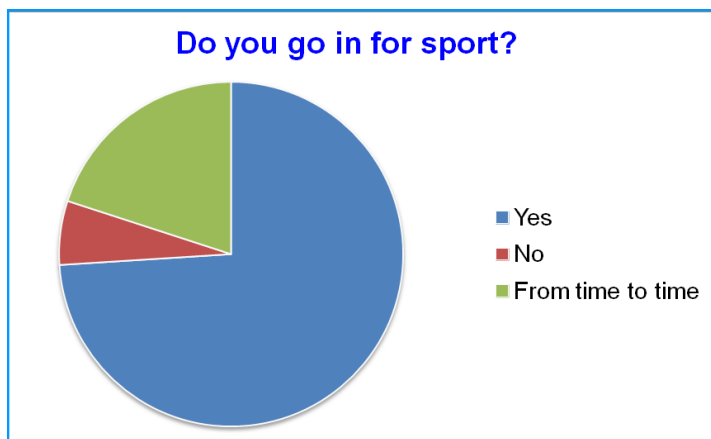

It's necessary to take care of our health. If you are strong in health, you will be able to learn well, to have an interesting hobby, to spend free time with your friends, to travel much, to achieve the goals you dream. As a result you will become a really successful person.

What to do to be healthy? To our mind the best way to keep fit and stay healthy is sport. There are many opportunities for keeping fit. First of all it is necessary to do exercises. Running, jumping, swimming, bending and stretching are among the most popular exercises. Many people prefer jogging, which is the cheapest and the most accessible sport. Walking is a very popular activity, too. A healthy body becomes a fashion, an ideal of the life of today.

We conducted a survey among our schoolmates. 50 students from 5-6 grades took part in the survey. We asked our schoolmates some questions about their attitude towards sport and healthy way of life.

According to the results of the questionnaire, about 90% of our students do morning exercises. 72% of respondents eat healthy food (buckwheat, rice cereal, fruit and vegetables, fish, meat), 24% - try to do it. Only 6% of our schoolmates don't go in for sport. The most popular sports of our schoolmates are football, volleyball, karate, sport dancing, athletics, skiing, hockey, tennis, golf, sambo, rowing. 85% of students often take part in sport competitions. Most of them have medals and honorary diplomas of the winners. They believe that sport helps them to be healthy and successful.

**Lera Bayankina,
Sofia Rogozhina, 6B**

Our translations

Alice's Adventures in

... First, she tried to look down and make out what she was coming to, but it was too dark to see anything; then she looked at the sides of the well, and noticed that they were filled with cupboards and bookshelves; here and there she saw maps and pictures hung upon pegs.

She took down a jar from one of the shelves as she passed; it was labeled 'ORANGE MARMALADE', but to her great disappointment it was empty: she did not like to drop the jar for fear of killing somebody, so managed to put it into one of the cupboards as she fell past it.

'Well!' thought Alice to herself, 'after such a fall as this, I shall think nothing of tumbling down stairs!

How brave they'll all think me at home!

Why, I wouldn't say anything about it, even if I fell off the top of the house!' (Which was very likely true.)

Down, down, down.

Would the fall NEVER come to an end!

'I wonder how many miles I've fallen by this time?' she said aloud. 'I must be getting somewhere near the centre of the earth.

Let me see: that would be four thousand miles down, I think - ' (for, you see, Alice had learnt several things of this sort in her lessons in the schoolroom, and though this was not a VERY good opportunity for showing off her knowledge, as there was no one to listen to her, still it was good practice to say it over) ' - yes, that's about the right distance - but then I wonder what Latitude or Longitude I've got to?' (Alice had no idea what Latitude was, or Longitude either, but thought they were nice grand words to say.)

Presently she began again.

'I wonder if I shall fall right THROUGH the earth!

How funny it'll seem to come out among the people that walk with their heads downward!

The Antipathies, I think - ' (she was rather glad there WAS no one listening, this time, as it didn't sound at all the right word) ' - but I shall have to ask them what the name of the country is, you know...

... Сначала Алиса попыталась посмотреть вниз и понять, куда она прилетит, но было очень темно, чтобы разглядеть что-либо; потом она стала рассматривать стены колодца и заметила, что всё было заполнено ящиками и книжными полками; тут и там она видела повешенные на колышки географические карты и картинки.

С одной из полок Алиса схватила банку. Она была подписана "Апельсиновое варенье", но к огромному разочарованию - пуста: Алиса не хотела кидать банку вниз, чтобы не убить кого-то. Ей удалось положить банку в один из ящиков.

"Хорошо! - сказала себе Алиса, - после такого падения я нечего не подумаю после того, как упаду с лестницы! Что же мне скажут дома? Может, даже если упаду с крыши - нечего не сделают! (Что выглядело очень правдоподобно)."

Ниже, ниже, ниже... Неужели это никогда не кончится!? "Интересно, сколько миль я пролетела к этому времени?" - сказала она вслух. "Сейчас я должна быть где-то около центра Земли. Думаю, пролетела я около 4000 миль (Алиса изучила что-то в этом роде на своих уроках и думала, что это не лучшее время, чтобы показывать свои знания, так как у неё не было ни одного слушателя, но это являлось хорошей практикой). Да, я правильно определила расстояние, но на какой я сейчас параллели и каком меридиане? (Алиса не имела понятия о том, что это, но ей показалось, эти слова хороши для произношения).

Вскоре она начала снова. "А что, если я пролечу насквозь всю Землю? Было бы здорово! Ведь я бы оказалась среди людей, которые ходят вверх ногами. Думаю, они Антипаты (она была рада, что её никто не слушает потому, что это слово звучало как-то неправильно). Но мне ведь пришлось бы спрашивать их, в какой мы стране"...

Александра Мавлетдинова, 6А

Wonderland by Lewis Carroll

The only things in the kitchen that did not sneeze, were the cook, and a large cat which was sitting on the hearth and grinning from ear to ear.

'Please would you tell me,' said Alice, a little timidly, for she was not quite sure whether it was good manner for her to speak first, 'why your cat grins like that?'

'It's a Cheshire cat,' said the Duchess, 'and that's why... Pig!'

She said the last word with such sudden violence that Alice quite jumped; but she saw in another moment that it was addressed to the baby, and not to her, so she took courage, and went on again:

'I didn't know that Cheshire cats always grinned; in fact, I didn't know that cats COULD grin.'

'They all can,' said the Duchess; and most of them do.'

'I don't know of any that do,' Alice said very politely, feeling quite pleased to have got into a conversation.

'You don't know much,' said the Duchess; 'and that's a fact.'

Alice did not at all like the tone of this remark, and thought it would be as well to introduce some other subject of conversation.

... На кухне не чихали только повариха и большой кот с улыбкой до ушей, сидевший на камине.

- Пожалуйста. не могли бы вы мне объяснить, - немного стесняясь спросила Алиса, так как не была уверена, правильно ли начинать разговор первой, - почему ваша кошка улыбается?

- Это Чеширский кот, - ответила Герцогиня, - вот почему... Свинья!

Последнее слово она произнесла с такой внезапной злостью, что Алиса подпрыгнула; но она поняла, что это адресовано ребёнку, а не ей, поэтому девочка решила продолжить:

- Я не знала, что Чеширские коты всегда улыбаются; я вообще не знала, что кошки умеют улыбаться.

- Они всё могут, - сказала Герцогиня, - и большинство из них это делают.

- Я ничего такого не знаю, - вежливо сказала Алиса, довольная тем, что вступила в разговор...

Сысертский педагог удостоен премии губернатора

Количество просмотров: 172
Написал Юлия Воротникова в Декабрь 18, 2017

14 декабря в резиденции губернатора Свердловской области состоялась торжественная церемония вручения премий губернатора лучшим педагогическим работникам – победителям областного конкурса профмастерства.

Конкурс проходит в три этапа. На первом эксперты оценивают представленные учителями заявки и документацию, затем лучшие принимают участие в очном этапе профессионального состязания, после чего жюри анализирует интернет-ресурсы педагогов.

В этом году в конкурсе на соискание премии Губернатора приняли участие 323 педагога

Свердловской области. Это педагогические работники общеобразовательных школ, дошкольных образовательных организаций, специальных (коррекционных) образовательных организаций для обучающихся с ограниченными возможностями здоровья, организаций для детей-сирот и детей, оставшихся без попечения родителей, профессиональных образовательных учреждений.

Губернатор поздравил педагогов с заслуженной победой и подчеркнул, что считает поддержку образовательной отрасли и педагогических кадров одним из приоритетных направлений работы региональной власти.

Призером конкурса в номинации «Педагогический работник общеобразовательной организации» стала учитель английского языка сысертской школы №1 Елена Васильевна Ваторопина. Она получила премию за третье место.

Елена Васильевна успешно прошла заочный и очный этапы конкурса. 25 октября на базе школы №10 с углубленным изучением отдельных предметов г. Екатеринбурга состоялся финал. Елена Васильевна провела открытый урок для школьников и дала мастер-класс для коллег из Свердловской области, в котором продемонстрировала свои приемы, методы, технологии обучения и воспитания, чем впечатлила жюри.

Коллектив школы №1 поздравляет Елену Васильевну с замечательной победой и желает успехов и новых достижений!

Ваторопиной Е.В., учитель английского языка
МБОУ СОШ №1,
Сысертский городской округ

БЛАГОДАРСТВЕННОЕ ПИСЬМО

Уважаемая Елена Васильевна!

Поздравляю Вас с заслуженной победой в конкурсе на соискание премий Губернатора Свердловской области педагогическим работникам в 2017 году.

Ваш ответственный и эффективный труд укрепляет престиж образования Свердловской области, формирует имидж региона с высоким уровнем образовательных возможностей и технологий.

Выражаю искреннюю благодарность и надежду на то, что Ваш профессионализм, талант педагога и человека будут направлены на становление молодого поколения россиян, возрождение славы и богатства Урала.

Желаю Вам успехов, счастья, здоровья на бесконечно интересном пути развития образования!

Губернатор
Свердловской области  Е.В. Куйашов
