School education is a very important part of general education in a modern society.

## **The objectives of the work**

- to develop skills of research work and their application to the solution of actual practical tasks;
- to study the literature on the topic that is available on the internet and in the libraries and summarize the valuable information;
- to conduct a survey and to discuss the results of our research paper at the school conference;
- to share opinions with our teachers about the school of our dream.

- **The object of the investigation** is school education.
- **The subject of the investigation** is the learning process in Russian and British schools.

# My school

It's actually the whole epoch for schoolchildren: they get major knowledge about outside world, obtain certain skills and get the experience of living in the society.

# Investigation into the problem

33 pupils and 15 teachers took part in this questionnaire.

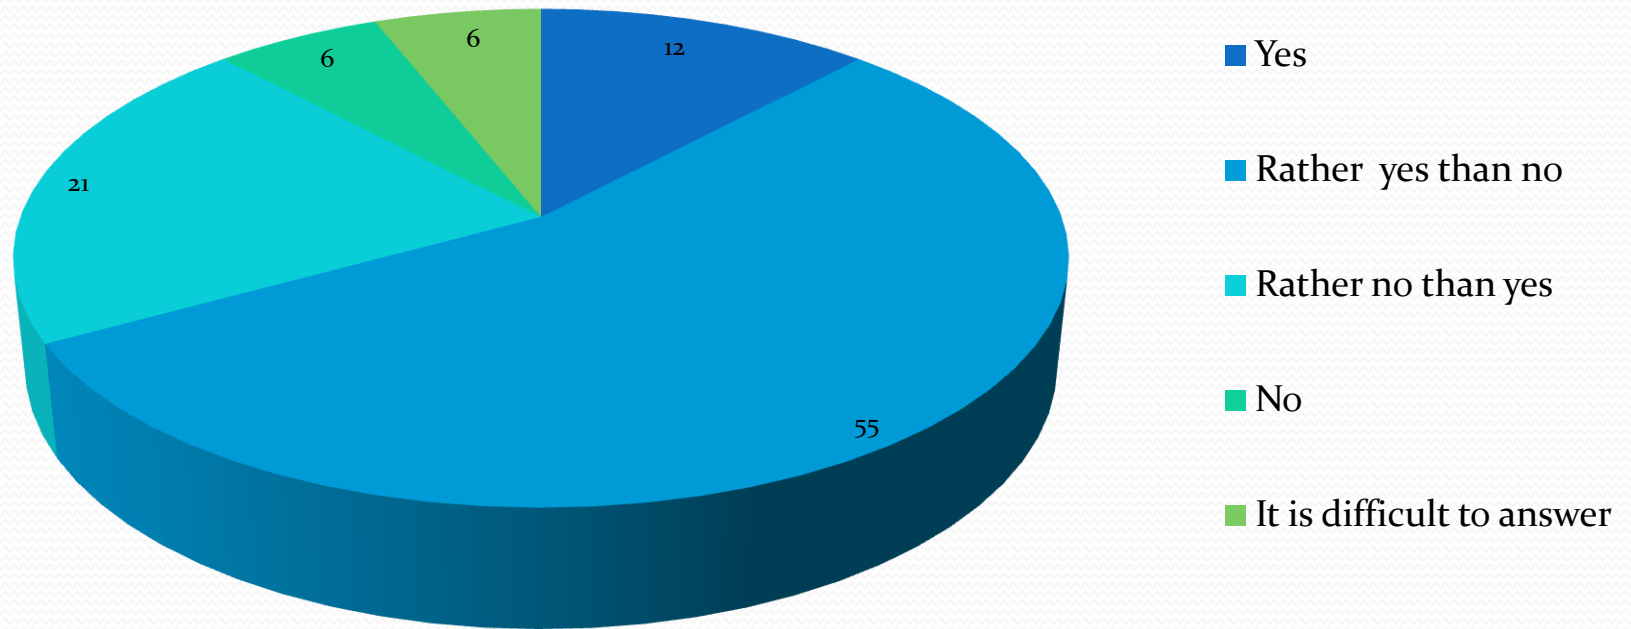

## *Questionnaire*

- 1. Are you satisfied with the quality and the volume of knowledge, getting at school?
- 2. What country has the highest level of education?
- 3. What disadvantages does our school have?
- 4. Would you like to study abroad?
- 5. What country would you like to study in?

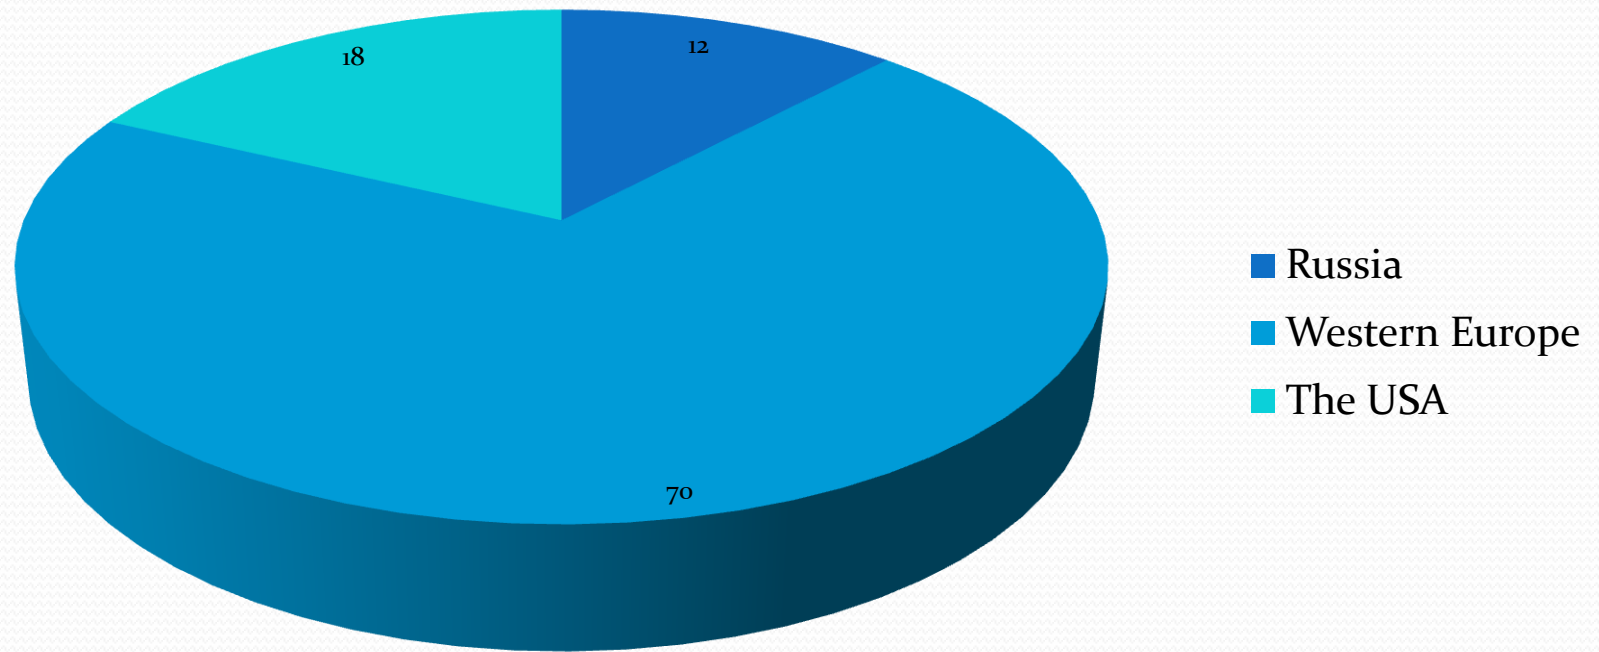

# Questionnaire Results

Students (33 students were asked)

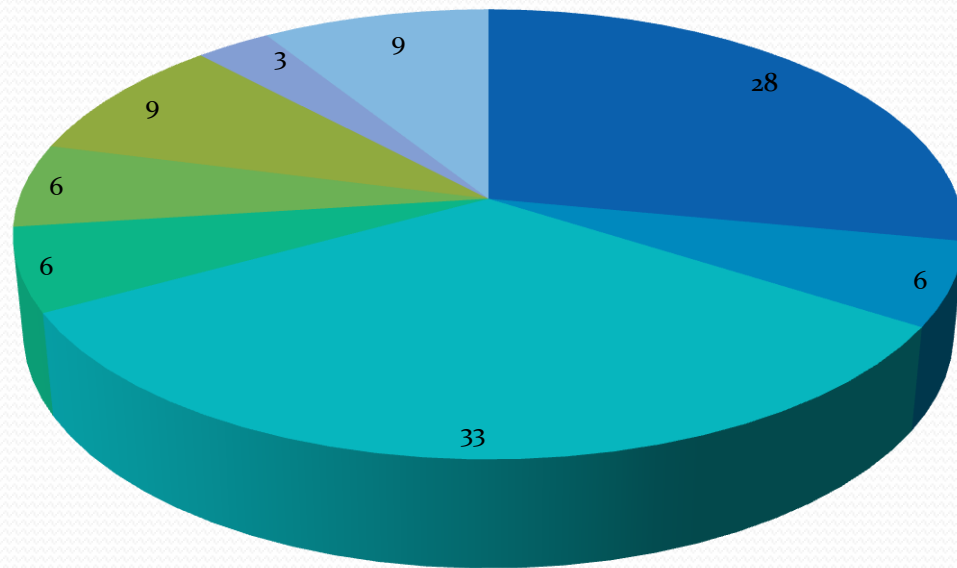

**Are you satisfied with the quality and the volume of knowledge, getting at school?**

**What country has the highest level of education?**

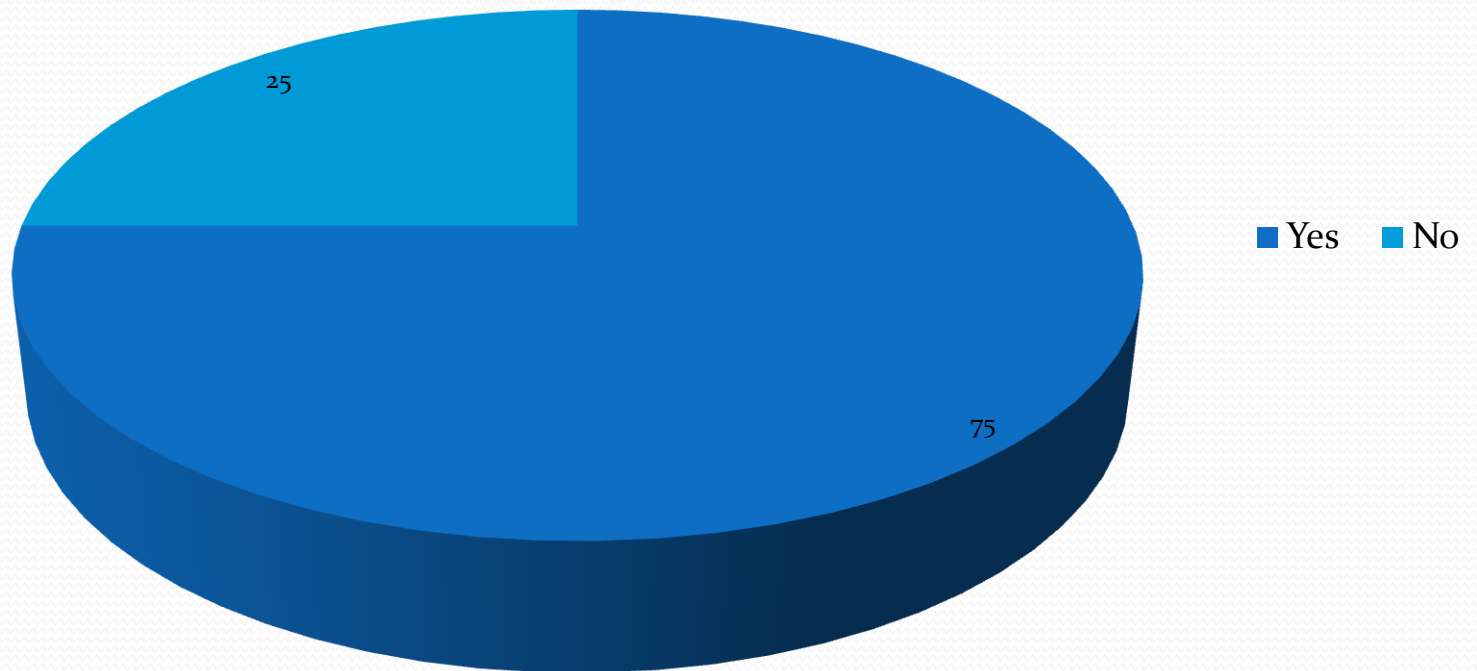

## What disadvantages does our school have?

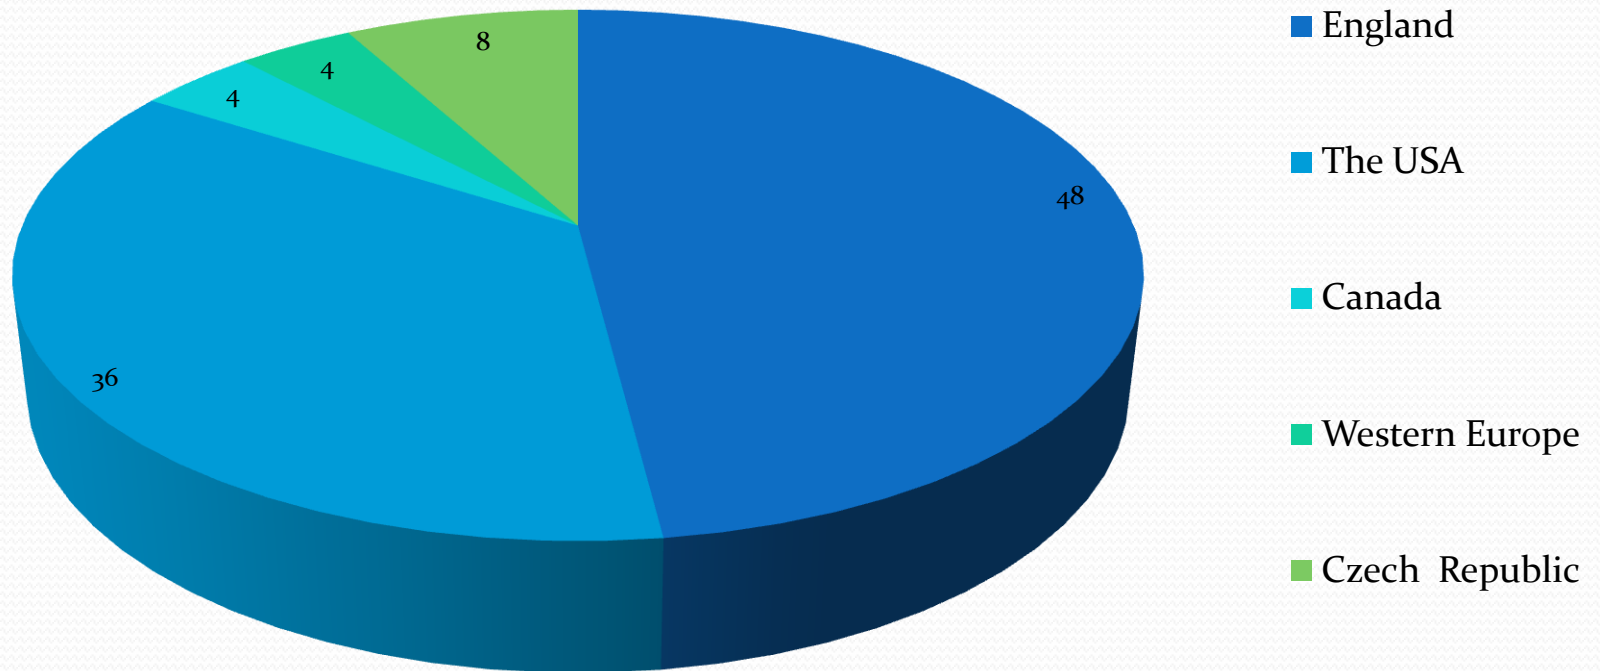

- Insufficient equipment of modern techniques, computers
- Too strict discipline
- Uninteresting teaching
- Useless subjects
- Insufficiently strict discipline
- No disadvantages
- No school uniform
- Teaching doesn't meet requirements

**Would you like to study abroad?**

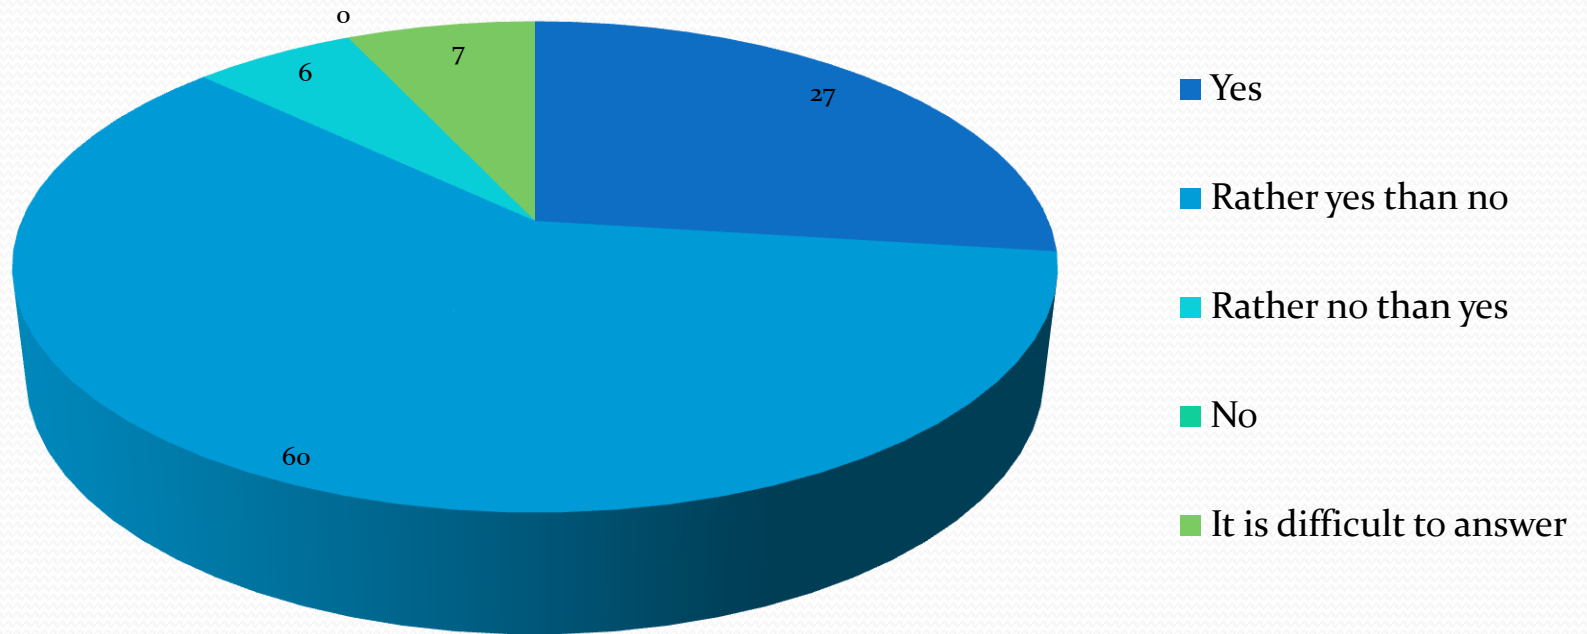

## In which country would you like to study?

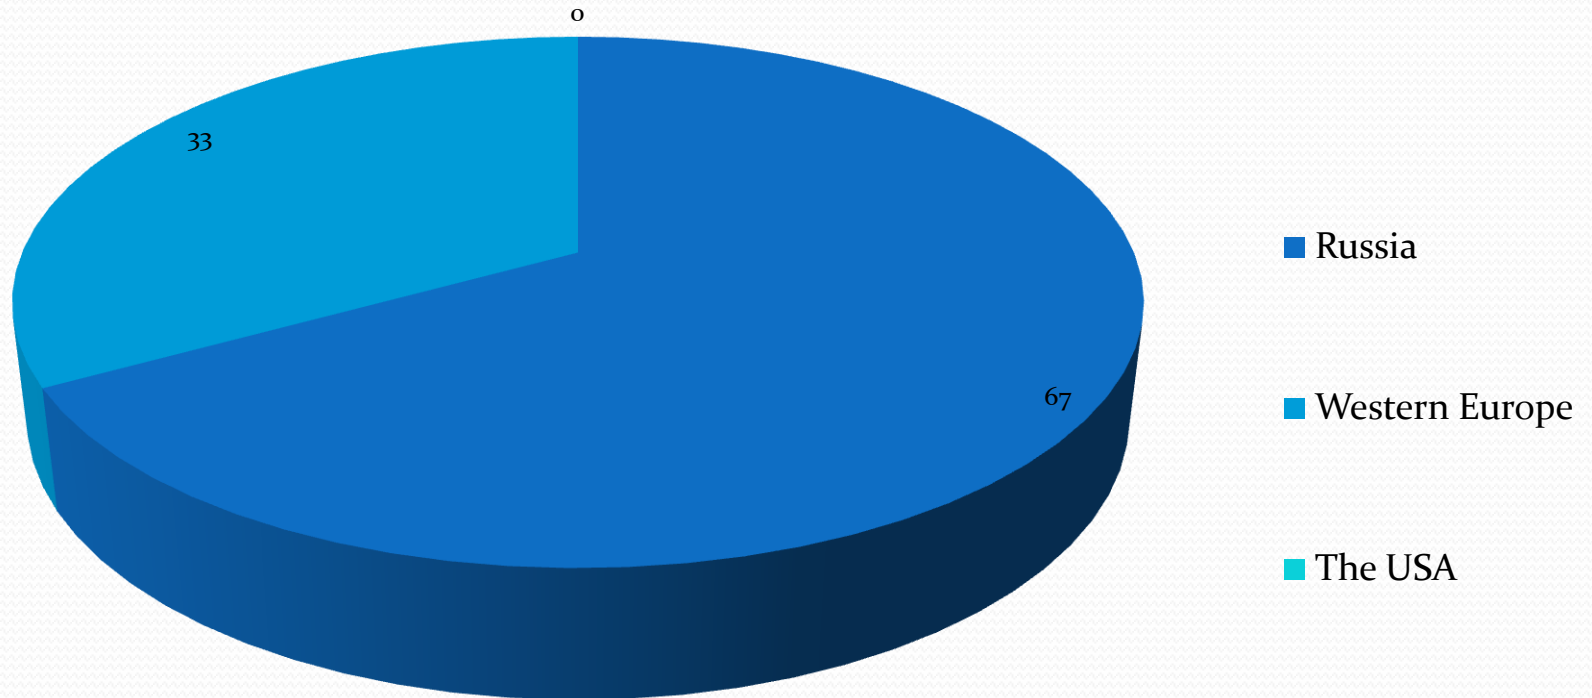

**Teachers (15 teachers were asked)**

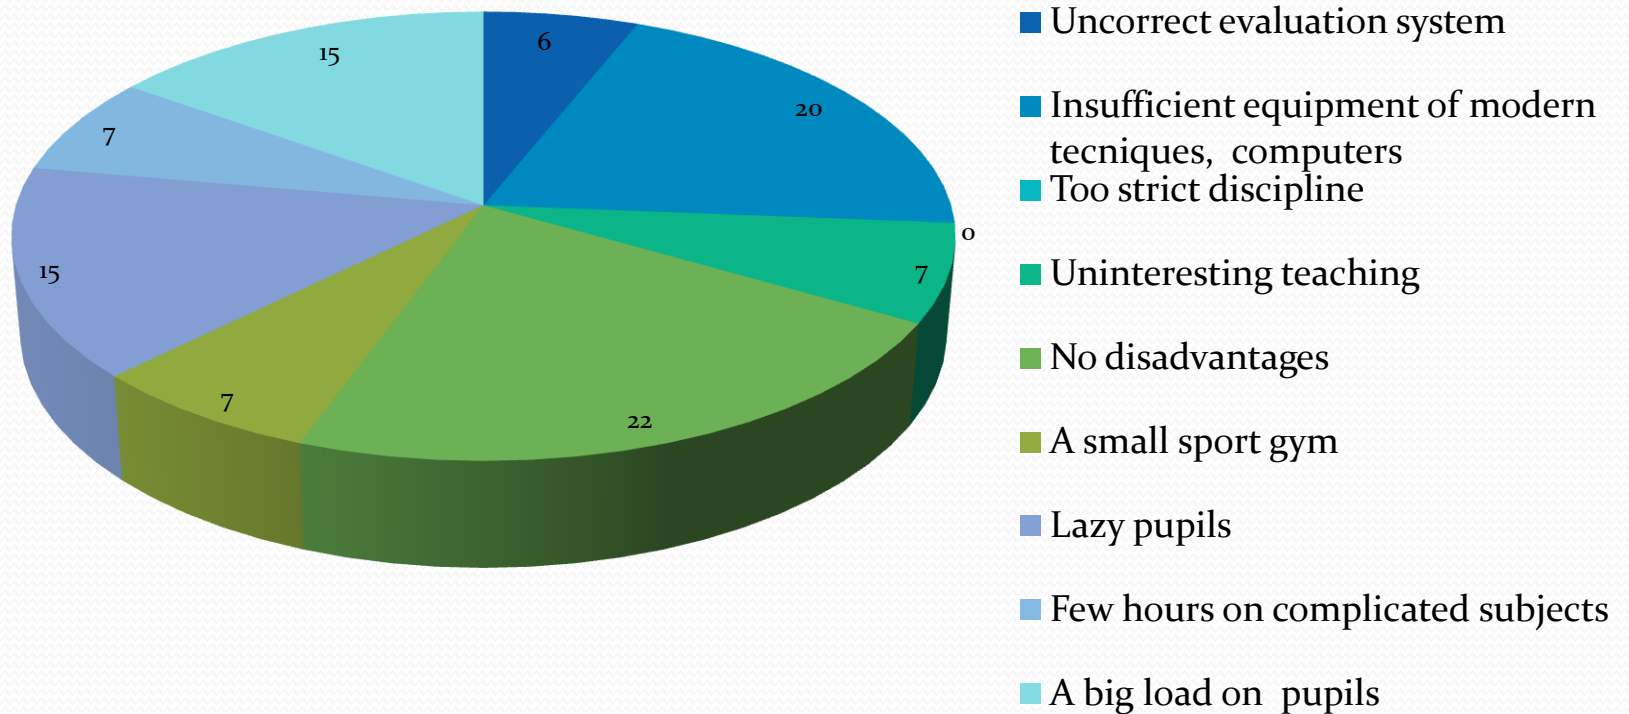

**Are you satisfied with the quality and the volume of  
knowledge, getting at school?**

**What country has the highest level of education?**

## What disadvantages does our school have?

**According to the results of the survey we can make some conclusions and give some advice to our school leaders and teachers. To make the level of our school education better and the process of teaching more effective we should do the following :**

- increase the number of computers at school. Every school study should have computers and other techniques;
- improve the quality of training of teachers. All of them should be able to work on computers;
- pay more attention on sports activities for pupils: to organize different sports clubs;
- give students more possibilities to have a good rest. To organize music clubs.
- The teachers should be more tolerant, patient and encouraging.

**We are sure that good education is the key to a nation's greatness.**

**Thank you for attention!**
