Reading is a ticket to everywhere

The film is coming. Wait for it!

*The snow has thawed, the sun shines brightly.
The wind is filled with warmth and spring.
This magic time makes me excited,
And sky above becomes so clean.*

*My March is full of pleasant moments,
But one of them I love much more.
It's Women's Day when bunches of roses
We buy for girlfriends in the store.*

*We get up earlier this morning
To make the greeting cards for Mums.
We wish them happiness and wellness,
That inspiration always comes.*

*Congratulating teachers, classmates,
We give them presents. What a thrill
When every girl and boy around
With good emotions only filled!*

*The 8th of March is Day of women!
My best regards to all of them!
To be forever blithe and charming
And shine as rare perfect gem!*

We are for healthy lifestyle!

Ski Track of Russia - 2018

"Ski Track of Russia" has been held annually since 1982. It is always a great winter holiday.

On the 10th of February we took part in a great sports event - "Ski Track of Russia - 2018". About one hundred students and teachers of our school together with the representatives of other schools of Syser'ty had a very good time in the fresh winter air! It was rather windy and cold, but high spirits and tasty pies with hot tea made everybody happy and joyful!

"Merry Starts"

"Merry Starts" for the 1st grades pupils of our school were held on February, 8. There were six sportsmen in each teams. They had to compete in different sports - throwing a ball in a hoop, length-jumping, skiing on one ski.

The rest classmates and the teachers were the fans! Friendship has won! Everybody was merry and happy to take part in that wonderful sport event. At the end, all the participants sang songs and danced.

Let's celebrate!

Defender of the Fatherland Day is a Russian holiday on February 23 and focuses on the achievements of military forces and veterans.

Many Russians observe February 23 as men's day because military

service is obligatory for most men in Russia. Women often give presents and postcards to their male relatives, including those who never served in the military. On a workday before or

after the holiday, many women also congratulate their male colleagues and schoolboys may receive small presents from their female classmates.

Invented in the Soviet years Military-Patriotic Festival "Zarnitsa", a game for students and youth, has gained its popularity over recent years. Military-applied sports clubs and groups, a lot of military-patriotic clubs reopen. "Zarnitsa" is held throughout the country, including Sysert. Our schoolmates took part in it, too.

Jules Verne - 190

Jules Gabriel Verne (8 February 1828 – 24 March 1905) was a French novelist, poet, and playwright. He was born in the seaport of Nantes, where he was trained to follow in his father's footsteps as a lawyer, but quit the profession early in life to write for magazines and the stage.

His collaboration with the publisher Pier-Jules Hetzel led to the creation of the Voyages extraordinaires, a widely popular series of scrupulously researched adventure novels including *Journey to the Center of the Earth* (1864), *Twenty Thousand Leagues Under the Sea* (1870), and *Around the World in Eighty Days* (1873).

Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. He has sometimes been called the "Father of Science Fiction", a title that has also been given to Herbert Wells and Hugo Gernsback.

Our students from the 5-6 grades answered the questions of the Quiz about Jules Verne and his works. They watched excerpts from the films "Children of Captain Grant", "Journey to the Center of the Earth", "Fifteen Year Old Captain". The literary journey impressed the participants of the meeting. Many

of them found the works of Jules Verne and decided to read his novels. They borrowed some books from the library. The exhibition of Jules Verne's books was organized for the guests from schools № 1, 6, 15.

P.P. Bazhov, our famous countryman

On February, 1-2 there was the quest devoted to Pavel Bazhov's tales. The pupils of the primary school took part in it. The students of the 10th grade Uliana Mukhlinina, Anastasia Bibikova, Slava Filyakin, Alexandr Antropov prepared interesting tasks for their younger schoolmates.

The guys had to go through 5 stages. They picked up minerals (chrysolites), which were scattered by the Silver hoof goat. At the other stage the children were met by the cat Muryonka and offered to dance to the music of the balalaika.

It is known that the Mistress loved to make riddles to prospectors of the copper mountain. Our schoolmates also had to guess various riddles. On their way they met a blue snake and two friends Lanko Puzhanko and Leiko Shapochka. Our schoolmates showed a great ingenuity and dexterity, and coped with all the tasks of the quest.

Our guests

Interview with Bruce Bertrand

The students of our school asked Bruce Bertrand some questions about his native town, his hobbies and travelling abroad.

Q: What is your hobby?

A: My hobby is photography, as you might guess from my pictures in FRIENDSHIP. Hiking used to be my hobby - I've climbed more than 650 mountains throughout New York and northern New England. Now I simply go for a 30 minute to two hour walk every day, sometimes on trails in or near the village.

Q: What were your favorite subjects at school?

A: My favorite subjects in high school were geography and mathematics. At university they were anthropology and computer programming.

Q: Do you speak Russian?

A: I don't speak or understand spoken Russian, and know almost nothing about Russian grammar. However, I do know many Russian words and a few basic phrases. I taught myself the Cyrillic alphabet and often recognize words on signs when I'm walking around in Russia, especially when they were borrowed from English.

Q: What is the main attraction of Lake Placid?

A: The main attraction in Lake Placid is the Olympic Center. Lake Placid was the site of the 1932 and 1980 Winter Olympics, and the Center's Olympic Museum and two hockey arenas are visited by many people. The Olympic bobsled run and ski jumps are also big tourist attractions.

Q: What traditions are there in your town?

A: The village stages a parade on three holidays: Memorial Day (last Monday of May - in memory of people who died while serving in America's armed forces), Independence Day (July 4th - the day in 1776 when the American colonies declared their independence from Great Britain), and Veterans Day (November 11th - to honor veterans of America's armed forces). There is a Winter Carnival in the neighboring Village of Saranac Lake that started in 1897. Many Lake Placid residents visit the carnival and the Ice Palace built for the event. Many of us also take part in Saranac Lake's First Night celebration on New Year's Eve.

Q: Do you like traveling? What countries have you been to?

A: I like visiting new places, but I'd rather travel to a place I can reach by car, bus, or train. Other than Russia, the only country I've traveled to is Canada. I've visited Canada several times in both my car and on a bus.

Q: What places did you like in Russia, in the Urals?

A: Other than Moscow's Sheremetyevo Airport, where I once spent an 8 hour and 45 minute layover, the only places I've been in Russia are in the Urals. I like Yekaterinburg because it's a very big city and contains many things that the small town of Lake Placid doesn't. I also liked three places that provided woods, waters, and trails for me to explore: Deer Streams Nature Park, Chusovaya Tourist Base, and Sysert's One of Bazhov's Places Nature Park.

Q: What Russian meal did you like?

A: I've eaten many Russian foods that I liked, but can only remember the names of a few. These include Beef Stroganoff, pelmeni, blini, and buckwheat kasha. I also liked cabbage and potato salads I ate, but don't know their names.

Q: Would you like to visit Russia again?

A: Yes, but I haven't decided when. Perhaps next autumn. I would like to explore two or three places for several days each, and take lots of pictures.

The film is coming.

Catcher of Time

The students from schools 1, 6, 23 of Sysert took part in shooting the film "Catcher of Time". Among them there were my schoolmates Liza Koltysheva and Sasha Mavletdinova.

We wrote a story about the "TimeCatcher", the boy called Eric, and his siblings Ben and Rose. Then, we wrote a script, dialogues, and only after that we started shooting. I had some problems with it, because I didn't learn my lines.

It was interesting to act, holding lights and a mike (in our slang, we call Microphone so).

I wouldn't tell you the story, because if you know the story, it's not interesting to watch the movie.

About the shooting - it was great! We had a professional camera, a professional microphone, and professional lights.

Now, we do the editing. I'm responsible for sound. Another one checks the colors, quality of pictures, and good scenes.

So, the film is coming. Wait for it!)
